

SUCCESSFUL PARTNERSHIPS FOR SUSTAINABLE SUPPLY CHAINS AND RESOURCE EFFICIENCY

07. SEPTEMBER 2022,
14:00 - 17:00 UHR

ZHAW SM Gebäude Mäander Trakt C, Theaterstrasse 15c, 8400 Winterthur. Raum SM 01.01, 1. Stock

Thema- und Inhalt

Strengthening sustainability in global supply chains is a major lever for achieving the Sustainable Development Goals 2030. Regardless of sector, internationally active companies face major challenges in optimising cooperation along the supply chain. Climate protection, transparency and responsible business are challenges that can only be solved through cooperation.

Zentrale Fragen

Multistakeholder partnerships for sustainability: How do we work better together? What are best practices and challenges? What can we learn from each other and how can we scale solutions? Are there new approaches to transparency and monitoring? How can we bundle the approaches?

Zielgruppen und Nutzen

Experts explain the initial situation. Representatives from business, politics, science and NGOs show where to start. Innovative win-win solutions and partnerships develop.
